

18

years

Metal Forging specialist

– **Copper** –

– **Aluminum** –

– **stainless steel** –

Milestones & Awards

2023

Invested machining facilities

2022

Award National high-tech enterprises
Award IATF 16949 certification

2021

Establish Huguang forging (Copper / Alu.)

2006

Establish Qianxi forging (Steel)

Core competitiveness

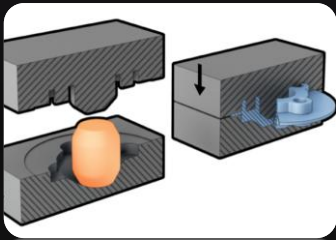

Integrated forging parts processes in house

- From mould design to finish parts
- Press from 160Ton – 1600Ton
- Machining facility

Know-how on forging technology

- Early involved with customers & design change proposal
- Machining feasibility study, optimize part cost

Fast sample

Cold extrusion

Hot forging

Machining

Representative parts

Copper

- Water Valves
- Magnetic valve

Representative parts

Aluminum

- Automotive brackets covers
- Home use components

Representative parts

Stainless Steel

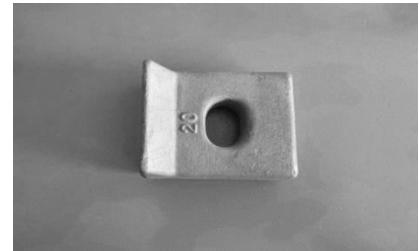

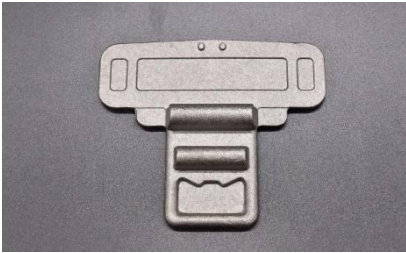

- Automotive flanges / arms
- Home use components

Representative parts

Carbon Steel

- Automotive flanges
- Hydraulic valves
- Mining machinery

Representative parts

Carbon Steel

- Automotive flanges
- Hydraulic valves
- Mining machinery

Representative parts

Alloy Steel

- Automotive brackets
- Hydraulic valves
- Mining machinery
